Researcher profile (portfolio) form for potential research supervisors of postgraduate track participants in the Global Universities Association International Olympiad for graduate and postgraduate applicants.

<table>
<tr><td>University</td><td>Tomsk Polytechnic University</td></tr>
<tr><td>English language proficiency</td><td>B1</td></tr>
<tr><td>Applicant’s postgraduate program</td><td>2.3.1 – System analysis, management and information processing,
2.3.2 – Computing systems and their elements,
2.3.3 – Automation and control of technological processes and production</td></tr>
<tr><td>List of research projects of a potential research supervisor (participation/leadership)</td><td>Synthesis methods for speed-optimal control systems for dynamic objects.
Modern methods of identification of objects of control systems.</td></tr>
<tr><td>List of possible research topics</td><td>Computing systems and their controls,
Automation and control of technological processes on programmable controllers, Optimal speed control.</td></tr>
<tr><td rowspan="5"> 
Research supervisor:
Aleksandr Anatolyevich Shilin,
DSc (Tech), Professor
Institute of Power Engineering
Department of Electric Drives and Equipment Tomsk Polytechnic University
Doctor of Science, Federal State-Funded Institution of Higher Education – Tomsk State University of Control Systems and Radioelectronics</td><td>Automated control systems</td></tr>
<tr><td>Supervisor’s research interests Development of theory and applied methods in process control systems based on micro-controllers. Optimal control of dynamic systems.</td></tr>
<tr><td>Research highlights (if applicable):
Most of the topics are related to work on existing control systems and the practical implementation of the main scientific results</td></tr>
<tr><td>Supervisor’s specific requirements:
a good level of knowledge of mathematical analysis, linear algebra and differential equations; software ownership:
MatLab, SciLab,
GnuPlot
Linux, Debian</td></tr>
<tr><td>Supervisor’s main publications and total number of publications in journals indexed by Web of Science, Scopus, RSCI - 8:
